National Taiwan Normal University
Campus Plastic Waste Reduction Policy

Objective: To implement sustainability practices on campus by minimizing the consumption of single-use plastic products.

Basis: Approved by the 17th Joint Academic and Administrative Directors Committee Meeting, 2020-2021 Academic Year on June 23, 2021

Recommended Practices:

(1) On-campus meetings of all units/departments:

1. Do not provide bottled water.

2. Avoid using plastic food containers.

3. Do not provide disposable chopsticks or plastic spoons.

4. Only provide ballpoint pens or plastic file folders upon request.

5. Recommend using reusable cups and cutlery.

(2) Office administration:

1. Avoid using single-use plastic food containers.

2. Avoid using plastic bags.

3. Reduce the purchase of overly-packaged products.

4. Recommend using reusable bags and food containers.

5. Choose eco-label products over single-use items whenever possible.

6. Recommend using reusable cups for takeaway beverages such as coffee, tea and juice.
